Local: 650.366.0100
info@meritsecurity.com

Merit Security can implement a comprehensive program to safeguard your privacy and confidentiality. We provide professional Technical Surveillance Countermeasures (TSCM) de-bugging sweeps and a vast range of services to protect your vital information.

Expert and Experienced in Security Assessments and Audits

[PRINT PAGE HERE](#)

Our assessments and audits will highlight windows of vulnerability and provide solutions to better protect and maintain assets, mitigate vulnerabilities, minimize risks and reduce overall workplace liabilities.

Our team of seasoned security practitioner's encompasses an impressive accumulation of knowledge, experience, and expertise across a wide range of business-critical security topics. Feel free to contact us, in confidence, with any issues or concerns. Merit can convey answers to your questions and furnish the proper strategies and solutions.

We provide services for corporations and private individuals, event organizers, and other groups that require security guidance. If you have questions or concerns about your security needs, please contact Merit at 1-650-366-0100 or info@meritsecurity.com.

Since 1984 our clients include startups and small businesses to national and international corporate groups. Here are a few comments from our clients:

Thank you, over the years, your company has been instrumental in providing training and support regarding the protection of intellectual property.
Corporate Manager, international chip manufacturer

Your appraisal of our sensitive and confidential information has highlighted anomalies in our operations and has helped my efforts in staying on top of the threats.
Security Manager, international internet portal

I would like to express my appreciation and convey my thanks for the professional and comprehensive manner that you conduct the audit and survey.
Security Manager, World Class Hi-Technology Company

Additional commentary can be found on our Customer Testimonial page.
